

South Cement Project Proposal

- The Trustees would like to present the following proposal before the congregation with a vote during a special meeting on May 4th, 2025

What areas would we like to replace?

- Replace the sidewalks from the bottom of the front entrance stairs around the south side of the church
- Replace the gravel lot, sidewalks between the buildings and the south side of the youth building with a new cement lot
 - This lot will expand into the grass section on the west side of the church and expand further south from the youth building
- Redo walk into Johnson Hall door
- Tile out the downspouts

Directions

Arthur Evangelical
Free Church

316

320

Costs

- Estimated cost \$34,000-\$36,000
- Final cost will vary upon how close we decide to get to the buildings

Questions we are still finding answers to

- How close should we get to the buildings?
- Should we move the light post on the south-west corner of the church?

Goals

- Eliminate trip hazards
- Expand/Improve parking between buildings
- Improve water shed abilities (keep water from entering church basement)
- Decrease the areas of potential mud
- Improve the ability to remove snow
